Principal or Senior Author Roles (not number of publications)

Principal (first author) and senior author (last author) roles on publications attributed to NYGH. The tally exceeds the number of publications if at least one publication has both a first author and last author from NYGH. *Publications year to date.

Principal or Senior Author Roles 2021*

- Research Chair Principal Author
- Research Chair Senior Author
- Staff or Physician Principal Author
- Staff or Physician Senior Author

*Publications year to date.

Notes:

- Only articles and editorials are counted -- no proceedings, abstracts, corrections, or papers in-press.
- Typically, there is a delay before a publication is indexed in PubMed or Web of Science.
- In the case of publication year discrepancy (early access, PubMed vs Web of Science), the later date is used.
- PA is Principal Author (first author) and SA is Senior Author (last author).
- The paper count in the current year is inflated, because some early access papers will move to the next year.
